Group Riding Review

Howdy all y'all HOG members!

Well, we have made it to October when it isn't so hot!! We should be riding a lot more now. And the groups seem to be getting bigger. So, we need to address riding in bigger groups. We've had a couple of instances where riders have been passing other riders or running red lights. We **do not** run **red** lights for any reason. If you stop, or get stopped, at a red light be assured that the Road Captain and the Gunner are in contact, and you will not get left behind. We would rather slow the ride or pull off till you catch up than have to come back because there was an accident. Let's all follow our group riding rules, so we all get back home safely.

Your Safety Officer,
Tom Kelly
